Application notes

Application Note : February 2021

Market involved : HVAC, Smart building

Product : EIS H

Customer : System integrators, panel builders, installers

Subject : Saving in space and costs

CUSTOMER ISSUE :

Electrical panel manufacturing and commissioning is expensive. The more that can be saved, the better in terms of material, labour and commissioning.

OUR SOLUTION :

Built-in CT allows quicker measured current connection.
Fixed setpoints eliminate any commissioning and misuse.
No aux power cables needed and hence saved.

BENEFITS :

- Panel space and costs are reduced.
- No risk that someone tampers with a setpoint.
